

B2 - Uricult survey

Colony Count	24	12	21*	82*	510*
	neg	$\leq 10^3$	10^4	10^5	$\geq 10^6$

*The sample contained Proteus mirabilis. The number of germs was $\geq 10^4$.
The bacteria grow in a dense lawn. Some participants interpreted this finding wrongly as "negative"*
