

Clinical Chemistry K01/K02

Albumin, alkaline phosphatase (AP), amylase, pancreatic amylase, AST/GOT, ALT/GPT, bilirubin direct/total, calcium, chloride, cholesterol, HDL cholesterol, LDL cholesterol, creatine kinase (CK), creatinine, eGFR, GGT, glucose, iron, lactate, LDH, lithium, magnesium, phosphate, potassium, sodium, total protein, triglycerides, urea, uric acid

Specimen

1.5 ml plasma (K1)

0.5 ml plasma (K2 for glucose)

0.5 ml plasma (K2 drip bottle for glucose)

Analysis

Albumin, alkaline phosphatase (AP), amylase, pancreatic amylase, AST/GOT, ALT/GPT, bilirubin direct/total, calcium, chloride, cholesterol, HDL cholesterol, LDL cholesterol, creatine kinase (CK), creatinine, eGFR, GGT, glucose, iron, lactate, LDH, lithium, magnesium, _____

Participants

3000 - 4000

Price

K1: CHF 40.- for 4 samples per year

K2: CHF 20.- for 4 samples per year

K2 (drip bottle): CHF 40.- for 4 samples per year

Note

Participants who only measure glucose can order the sample K2

We have special samples for the following determinations:

Lipids with Afinion, Cobas b101, CardioCheck: K30

Bicarbonate, Cholinesterase, Copper, Fructosamine, Lipase, Zinc: K34
